Building of Alabama.
Mobile, in a recent letter to the Alabama State Officials, says: "Allow me to send to you a testimonial as to the qualities of Peru-na. I have used it for the last few months and find it most excellent for catarrh of the bladder, and it is the only one by those who have catarrh cure."—John Johnston.

U. S. Marshal, Northern District, Hon. Dan Cooper, U. S. Marshal for the Northern District of Alabama, writes: "Your remedy for catarrh and la grippe, Peru-na, has done me so much good that I cannot speak too highly of it. I have used it for a short time and have improved rapidly from the first day. I was really much surprised at such a quick and effective cure."—Dan Cooper.

States Land Office.
Register United States Land Office, writes from Montgomery, Ala.: "I have been a sufferer from catarrh of the bladder for many years, and it is a fair trial and its effects were disconcerting. I was particularly interested in your remedy, and as a fine result in my family, I take your quality of Peru-na."

U. S. Marshal, Southern District, Hon. L. J. Bryan, U. S. Marshal for the Southern District of Alabama, writes: "I have used Peru-na for catarrh of the bladder and have also had several friends try it and they all pronounce it the best catarrh remedy ever put on the market. It cannot be praised too highly."—L. J. Bryan.

Port.
Collector of Port, writes: "I have used Peru-na for catarrh of the bladder and have also had several friends try it and they all pronounce it the best catarrh remedy ever put on the market. It cannot be praised too highly."—L. J. Bryan.

If you do not derive prompt and satisfactory results from the use of Peru-na, write at once to Dr. Hartman, President of the Hartman Sanitarium, Columbus, Ohio, and he will give you the benefit of his valuable advice gratis. All correspondence strictly confidential.

WHAT THE SNAKES HAVE BEEN DOING.

Blacksnakes Hold Boys Prisoners.

Three boys who were gathering berries on the mountains near Williamsburg, this country, had an aerial experience with two monster blacksnakes. They were picking from the same bush, when they heard a noise close by, and turned to see a blacksnake slowly coiling itself after a sun-bath. They sprang upon a high fence and were about to drop on the other side, when they observed the mate of the first snake getting ready for business under them.

Paralyzed with fear, the lads clung to the fence for an hour before their screams for help were heard by John France, a farmer near Williamsburg, who was driving along the public road contiguous to the clearing where the boys were prisoners. He went to their rescue.

Fearing that he would be unable to cope with the reptiles, he ran for help, and a desperate battle took place. Both snakes were killed. The one measured 10 feet 7 inches, and the other almost nine feet.

The boys collapsed after they were rescued. The reptiles were the largest ever seen in this vicinity.

Rattlesnake in Cyclone Cave.

From the Kansas City Journal. The family of John Moore, in northern Comanche county, went to a place of refuge from a tornado which might only to find they had gotten into a cave harbored with a rattlesnake.

The interior of the cave was in complete darkness when the inmates were startled by hearing the unmistakable sound made by a rattler. Mr. Moore hastily struck a match, and by its glimmer saw the snake in the midst of striking. The match went out and the family began to scream.

Another match was lighted, and the snake was still visible and rattling furiously. Then Mr. Moore made a spring leap for the steps, jumped over the snake, opened the door and threw a pitchfork. The while his hand held a match he killed the rattler, which measured over three feet long.

Snake in His Bed.

From the Kansas City Journal. O. M. Carter, of this city, was awakened last night from his sleep by a snake in his bed.

He awoke to find a snake coiled around his neck. He tried to move, but the snake moved with him. He tried to get up, but the snake moved with him. He tried to get up, but the snake moved with him.

The child screamed, and when Mrs. Martin rushed to its aid she found him in the coil of the snake. After a desperate battle she killed the reptile, which measured 7 feet in length. The snake had to be unwrapped from the child's body after it was killed. The child will recover.

Snake Scared Child to Death.

From the Philadelphia Record. A child was killed by a snake which he accidentally stepped on in the grass, little Ella Hubert, the twelve-year-old daughter of Mr. and Mrs. William Hubert, living north of this city, died here this afternoon.

The child had been playing about the yard when she stepped on the snake with her bare feet. The reptile was a venomous one and he soon died of fright and not a bite. Physicians arrived at the farmer's home too late to render assistance.

Snake in a Fruit Jar.

From the Philadelphia Record. Five snakes, one found coiled in a gallon fruit jar, were killed in the cellar of James Dugan, North Front street, West Care, Del.

In the neighboring cellar of the Rev. S. Beattie Wylie two snakes were killed.

Stopped Car to Kill Snake.

From the Philadelphia Record. A trolley car of the Hamilton avenue line was bowling along the outskirts of Trenton, N. J., to-day, when the attention of the passengers was called to the arrival of some one upon the front porch of a house along the way.

It was found that a blacksnake had appeared near the porch. Conductor Holliday stopped the car and killed the snake, to the relief of the women and the satisfaction of the delayed passengers.

Found Hog Nosed Viper.

From the Denver Post. A strange find was made to-day by Alfred Parker of Cochetopa, who found a hog-nosed viper. The viper was found in a hole in the ground, and was found to be a very large one.

Hog-nosed vipers are the most poisonous of reptiles, as well as the most beautiful. They are found in the mountains, and are found to be a very large one.

LAWSON TO DINING GREAT SUI, EXPOSES SYSTEM IN SPEECHES.

Thomas W. Lawson, the man who has exposed the gigantic oppressions and high-handed financial methods of the Standard Oil company, known as the "System," in a series of articles in Everybody's Magazine, and who has become famous by telling the people of this country how they are being wronged, says that he is preparing to sue the largest insurance companies of the country, to get back money belonging to the people. In an interview last week at Omaha, Neb., in which state he is making speeches along the line of his magazine articles, he said that he would soon take the first step against the insurers or companies in the form of a lawsuit to be begun by 5,000 policy holders of the New York Life, Equitable and Mutual Companies against 1,000 officers and directors. He said:

"This suit will be for the restitution of the millions of dollars illegally received by the companies in the shape of commissions and perquisites. How much has been taken I do not know, but the amount is large, as is shown by the fortunes accumulated by the directors. They have no right to the money; it belongs to the people."

"Before the case has gone far there will be at least 1,000 lawyers. Recently, in Everybody's Magazine, I invited the policy holders to send me their names and other information. The response was astonishing. During the first week over 14,000 replies were received, representing policies from \$100,000 to \$300,000, and from men ranging from laborers to governors. I intend to pick out about 5,000 as plaintiffs to bring the suit, because the system, not only as a large number to quit. The result will be that the people will recover their money. The Equitable fight is a nasty one, but shows that the charges I have made against the companies are valid in comparison with the real facts."

He said that he was going to dine with the Standard Oil company, and that he was going to dine with the Standard Oil company, and that he was going to dine with the Standard Oil company.

their throats; they knew something was wrong with the machinery. During that time the country has prospered as no country ever did, and yet the people did not have the wealth they had produced. A few men had many millions—hundreds of millions—but the 50,000,000 had nothing after selling their bills on Saturday night.

"When I got out West and preached that doctrine, people said, 'Way, that's nothing but Populism. We know that.' Well, if that's Populism, it's a good thing. I'll be a Populist myself before I get back to New York if I don't look out. But if that's old Populism, then when I get through with it Wall street will think it about the newest, greatest thing it ever heard of."

The reference to Populism brought cheers from all over the audience. Lawson spoke of the failure of the Kansas oil refining scheme by saying: "If that State refinery had been built the Standard would simply have got control of the entire State government, and in this way would have continued to rob the people in the name of the State and by using the name of Kansas as a shield."

Lawson's Speech at Ottawa. Mr. Lawson is accompanied on his speaking tour by William Jarome, the famous district attorney of New York. His first speech was made at Ottawa, Kan. He took the "System" as his subject. The "System" is the name he applies to the Standard Oil company.

Mr. Lawson said in part: "I have come to Kansas on a simple mission—to point out to you that the American people are being robbed; by whom, how and what the consequences will be if the robbery is not stayed and an example made of the robbers."

"What are you going to do about it? You know in this condition which allows the few to possess all the money to be left with nothing made to defend. If it is not, slavery is the alternative. How shall it be ended? By your ballots. What are ballots against dollars, and the System has millions of dollars. With \$5,000,000 I saw Rogers rob the sole, fearless, honest, but all wrong on the money question, William Jennings. Hey out of the presidency of the United States in 1896. Do you imagine he would shrink from repeating the operation in 1906 if he feared that the man you nominated would upset his control?"

"Today as the nation of your affairs is an able and fearless American, bold to conceive and strong to execute. To all of you he is a hero, and you are behind him, ready to back up his course wherever he sees to go. President Roosevelt knows it, and today no man in the country is more keenly aware of the necessity of curbing the corporate despotism under which we live—but what can President Roosevelt do? I hate to say it, but he is as helpless in the 'system' as a nail in a balloon."

"The American people have been laboring under a great evil for the past thirty years. They could not see the evil thing, but they felt it at the delivered by him at Ottawa, Kan. But he added to or took from that speech as he warmed to his subject. When he made the statement that 'there are three of the mainstays and best paid men in the 'system' employ who have followed me during their trip and who are now with me in each of my voices,' the people peered around as if they expected to see three of Satan's lumps."

WEDNESDAY, July 19, 1905.

We call attention to the card of
Henry DeHaven Moorman, candidate
for county judge, printed in another
column. It states his position on the
road question, a very important
question to the tax-payers of Brecken-
ridge county. There is nothing that
Breckenridge county needs more than
good roads and we are glad to see
Mr. Moorman taking the stand for
their improvement. He is doing
something that no candidate ever
did before, letting the people know
just how he stands and what he will
do if elected. Whether his views be
right or wrong, it shows that he has
the courage to state them and stand
for them. We commend the young
man's courage. It shows that he is
progressive and means to do some-
thing besides collect his salary, if
elected.

Difficult Digestion

That is dyspepsia.
It makes life miserable.
It suffers not only because they want to,
—but simply because they must.
They know they are irritable and fretful;
but they cannot be otherwise.
They complain of a bad taste in the
mouth, a tenderness at the pit of the stom-
ach, an uneasy feeling of puffiness, flatu-
lence, heartburn and what not.
The effectual remedy, proved by perma-
nent cures of thousands of severe cases, is
Wood's Sarsaparilla

Wood's Pills are the best cathartic.

Nasal CATARRH
It is all in the nose.
Ely's Cream Balm
cleanses, soothes and heals
the diseased membrane.
It cures catarrh and drives
away a cold in the head
quickly.
Cream Balm is placed into the nostrils, spreads
over the membrane and is absorbed. Relief is im-
mediate and a cure follows. It is not drying—does
not produce sneezing. Large Size, 50 cents at Drug-
gists or by Mail, Trial Size, 10 cents.

LOCAL BRIEFS.

A donation party was given Rev. and Mrs. J. T. Lewis at the Baptist parsonage Tuesday evening of last week.

The negro methodists are holding a camp meeting at their church on Houston street.

Rev. P. L. King preached at the Methodist church Sunday morning for the first time in several weeks, he and his family having been on a visit at Smith Grove.

Rev. W. A. Lusk, pastor of the Baptist church at Indianola, Miss., filled the pulpit at the evening service. Rev. Lusk and family are on a visit to his wife's parents, Mr. and Mrs. J. E. Keith. He has preached at the Methodist church several times and is always well received.

G. W. Short is improving and enlarging his residence by adding a second-story room and a wide porch.

Thos. Wroe was city marshal Saturday and Sunday, in the absence of marshal Delhaven, who returned Sunday night from Ft. Thomas, where he took Walter Estes, the deserter.

The members of the Epworth League enjoyed a social at the home of Miss Margaret Skillman last evening.

Some of the streets that were badly washed by the heavy rains this month are being regraded.

G. W. Snyder and sister, Mrs. John Hook, of Hardsburg, were in town Saturday. It was Mr. Snyder's first visit here in twenty years.

East-bound train No. 46, due at 5:07, arrived here six hours late Saturday morning. The delay was occasioned by a wreck on the L. & N. near Mt. Vernon, Ind., in which four lives were lost. No. 44 was nearly four hours late.

REMEDY FOR HAY FEVER

After Trying Other Treatments, Hyomei Was Used with Perfect Success.

Before the discovery of Hyomei the only advice a physician could give his hay fever patients, was to go away from home, but now anyone who is subject to this disease can, if Hyomei is used, stay at home, without fear of the annual attack of sneezing, watery eyes, and other discomforts.

J. F. Forbes, a well known Western railroad man, whose home is at McCook, Nebraska, writes: "I have never had any relief from my remedy for hay fever, even temporarily, until I discovered the merits of Hyomei. I always recommend it when occasion requires."

There is no offensive or dangerous stomach dosing when Hyomei is used. This reliable remedy for the cure of all diseases of the respiratory organs is breathed through a neat pocket inhaler that comes with every outfit, so that the air taken into the throat and lungs is like that of the White Mountains or other health resorts, where hay fever is unknown.

The fact that Short & Haynes agree to refund the money to any hay fever sufferer who uses Hyomei without success, should inspire confidence in its power to effect a cure. A complete outfit costs only \$1.00 and extra bottles but 50 cents.

APPRECIATION OF

REV. J. T. LEWIS.

Cloverport, Ky., July 15, 1905.

Editor of Breckenridge News:—

As has already been indicated by your kind notice in the last issue of your paper, we are here and at work upon our new field.

We are delighted with our reception, and feel that the outlook is bright for good work in this

portion of our Master's vineyard.

In turning away from our dear people of Irvington and community, as you have said, we have left a host of friends and, thank God, our coming here does not sever this precious relation. "When we assunder part, it gives us inward pain but we shall still be joined in heart and hope to meet again." We are here because we believe the Lord has a work for us to do at this place. We realize that this work is not only to be done in your midst, but with you.

On last Tuesday evening we were greatly impressed that we could stay a while in Cloverport, any how. Quite a number called and brought many good things leaving pastor, wife and children happy and encouraged for the work. This splendid donation makes me feel that I must be in the midst of a missionary people. If you give so liberally and willingly to your pastor, who is in no immediate or special need, surely he can lead you to do what ought to be done for those who are suffering for the gospel of the Son of God, here and even "unto the uttermost part of the earth."

May the Lord bless you for this, your kindness to one who comes to be your under-shepherd. This ought to stimulate the shepherd to lead in paths of right.

In order to do this he, the leader, must be right with the Lord, —thank God this we all may be.

Yes! we are rejoicing in the midst of a kind reception. You Methodists have a right to demand of the Baptist pastor that he at least "be good." The first week of our stay in your town we were entertained by big-hearted Methodists—the denomination can't produce any better—I mean the sisters.

And the Presbyterians don't have any preaching on our days and if they will "be good" we will let them have their say also.

Oh, Christian friends let our coming together be for His glory by putting together our hands, hearts and heads for the salvation of the lost and extension of His glorious kingdom.

Now, in closing this effort to express our appreciation of your kindness, and being in your midst, permit me to wave a salute—not to the "girl I left behind," for I brought her with me—but to the brothers, sisters, boys and girls that I didn't bring. God bless them all. And to my Cloverport people let me say: Many are the prayers that have been and will be offered at Irvington and Stephenson for your pastor—we shall succeed. The hand of the Lord is with us, and up to us.

O! may He—bless His holy name—"Work in us both to will, and to do of His good pleasure."

J. T. Lewis.

HOWE'S TORICOID GLASSES

"TORICOID GLASSES" are spectacle and eye-glass lenses ground in a peculiar manner, so as to give a much larger, clearer field of vision than any other glasses and a sense of freedom and comfort to the wearer that no other glasses afford, and which can be appreciated only by those who have tried them.

They are without question, the most scientifically constructed glasses that have ever been made when made in accordance with the principles and far-sighted glasses combined) and wearers with much comfort as single-lens glasses. This cannot truthfully be said of any other form of optical glasses.

"TORICOID GLASSES" are made only by J. T. Howe & Co., and are guaranteed by them and their authorized agents under a patent which gives them the right to satisfaction in every way they may be returned and the money paid for them will be refunded.

If you have any trouble with your eyes, or if your glasses have not given you perfect comfort and satisfaction in every way, write us about "TORICOID GLASSES"—mentioning this paper.

REMARKABLE DUELS.

Fanciful Contests That Tried Men's Nerve and Courage.

Two heavy weights suspended from a beam by slender cords were the weapons chosen by two Parisians named Durier and Vain, to terminate their rivalry for the hand of a pretty actress. Beneath a weight each took his stand, there to remain until the breaking of one or the other of the cords should decide his fate. For more than four hours they remained motionless, when the cord attached to Durier's weight snapped, and the ponderous mass of metal, falling upon the man beneath, struck him to the ground. Fortunately, however, it just missed his head, and he escaped with no worse damage than a severe shock and a broken collar bone.

Snowball prolonged was the duel waged a few years back at a well known Yorkshire seaside resort, to decide which of two young men should surrender his claim to the hand of a local publican's daughter. The rivals both prided themselves upon their athletic prowess, so it was agreed that he who should first miss his opponent's swim in the open should withdraw his pretension to the lady's hand. For nine months and more each took his mutual swim, but at length there came a day of such furious storm that one turned faint hearted and refused to dare the tempestuous billows. The other, however, at considerable risk, dashed into the foaming sea, and although he was badly cut and bruised, emerged a triumphant winner.

Another aqueous duel occurred some years since, the location being the lake of Geneva and the contestants a Swiss named Zellner and one Lenoir, a Frenchman, who agreed that he who could remain the longest beneath the surface of the water should without interruption or hindrance from the other be permitted to pay his addresses to the daughter of a wealthy tradesman. The rivals dived simultaneously, and more than two minutes elapsed ere Zellner's head appeared above the surface. There was no sign, however, of his rival, after whom when yet another two minutes had sped a couple of onlookers dived and succeeded in recovering his senseless body. Restoratives were successfully applied, and on Lenoir's recovering consciousness he was acclaimed the victor.

At the time of Susan's forty day fast at the Westminster aquarium, some years ago, a couple of young Mancunians agreed by consulting his example to decide which of them should first propose for the hand of a girl who had hitherto regarded them with a seemingly impartial affection. Four days was sufficient ordeal for one, who, refusing any longer to abstain from food, left the field clear to his rival, whose proposal, however, met with scant consideration from the lady, who declared that she would not intrust her future to the keeping of such a fool as he had proved himself. Needless to say his rival's reception was equally glacial.

During a very severe winter in the last century a couple of Germans, natives of Dresden, resolved for love of a woman to fight a duel to the death. Very fantastic was the method employed. Without previous notice of any kind and clad only in the lightest of clothes, they went out into the country, there to remain without shelter until one or other of them should succumb to the cold. Three days after their departure a wretched object crawled back into the town. Ten miles distant his rival, frozen to death, lay beneath the falling snow.—London Times.

Kipling's New Story.

Rudyard Kipling has not been of late a frequent contributor to magazines. The August Century will contain a story by him, a tale of Americans in England called "An Habitation Enforced."

The story is said to be an unusually long one for Mr. Kipling, so long that The Century editors were minded at first to print it in two numbers, but it was decided to let it all appear in the mid-summer Holiday issue.

READ THIS.

Louisville, Ky., Oct. 1, 1902. Dr. E. W. Hall, St. Louis, Mo., Dear Sir—I suffered four years with kidney and rheumatic trouble. At times could not raise my arms up and pain in my ankles were so severe I could hardly walk. Your Texas Wonder, Hall's Great Discovery, has cured me and I take great pleasure in recommending it to any one similarly afflicted.

Yours truly,

JOHN SUTHER, 1815 16th St.

A TEXAS WONDER

One small bottle of the Texas Wonder, Hall's Great Discovery, cures all kidney and bladder troubles, removes gravel, cures diabetes, seminal emissions, weak and lame backs, rheumatism and all irregularities of the kidneys and bladder in both men and women; regulates bladder trouble in children. If not sold by your druggist it will be sent by mail on receipt of \$1. One small bottle is two months' treatment and seldom fails to perfect a cure. Dr. E. W. Hall, sole manufacturer, P. O. Box 629, St. Louis, Mo. Send for testimonials. Sold by all druggists.

MORE RAILROAD TALK.

Probable That the L. & N. is Behind Line From Madisonville.

(Madisonville Hustler.)

It is considered a sore thing that the railroad from Madisonville to Cloverport or some other point on the Ohio river will be built without much delay. The surveys are now in the field locating the line and there is little doubt that they are now locating it where it will finally go. It is evident to the person who studies the matter a little that the work in connection with the Cloverport proposition has been carefully planned and has been ably managed up to this time, and it would seem that little, if anything, remains to be done to perfect the scheme originally decided upon by the promoters.

Of course there are all sorts of rumors in connection with the ultimate ownership and operation of the road. The promoters have carefully kept their ultimate purpose a secret and the public can only surmise as to what system will control the Cloverport line when built. It is being ostensibly promoted by parties at Hartford and Madisonville, notably among them being Mr. H. H. Holeman, Vice President of Morton's Bank, of this city. Mr. Holeman makes no secret that the road, when built, is to be turned over to somebody, but gravely waves the matter off when approached as to the real partners in interest.

The latest rumor is, and it seems to have pretty good foundation, that the L. & N. is behind the proposition, that the line will run from Madisonville to Fordville, where a branch line at the Texas crosses, and that this branch will be used for reaching the Ohio river.

The pills that act as a tonic, and not as a drastic purge, are Dr. Witt's Little Early Risers. They cure Headache, Constipation, Biliousness, etc. Early Risers are small, easy to take and easy to act—a safe pill. Mack Hamilton, hotel clerk at Valley City, N.D., says: "Two bottles of these Famous Little Pills cured me of chronic constipation. Good for either children or adults."

W. H. How II, Houston, Tex., says:

"For years I have used Little Early Risers in my family. No better pill can be used for constipation, sick headache, etc., than these famous pills. Scores of testimonials prove their worth. Sold by All Druggists."

Comparative Strength

Of World's Navies.

The comparative strength of the World's navies has just been issued from Washington. England stands first with 1,595,871 tons and France second with 903,721 tons. From this it is seen that England is more than twice as powerful on the seas as any other nation on the globe. United States stands fourth on the list with 316,525 tons which makes us weaker on the sea of 100,000 tons than Germany, who stands third on the list with 441,449 tons. Italy, Japan, Russia and Austria are the next down the list with nearly 300,000 tons each.

Before the war between Russia and Japan, Russia held the third place on the list of naval powers but today stands next to the last in the seventh place. Japan has reduced the naval power of Russia to one-half of its former size.

The Working Class.

A traveler in the mountain country of East Tennessee stopped one noon at a cabin, says the New York Sun. In the shade of the house sat a comfortable-looking, middle-aged man, apparently at leisure. A dozen dogs loomed about him.

"Can I have dinner here?" asked the traveler.

"I reckon so," drawled the man, "when the old woman turns up."

The "old woman" came in after a while, leading a weary-looking male, and wiping perspiration from beneath her big sunbonnet. She split some wood, built a fire, fetched some water, and soon had dinner ready.

"You have a fine country here," said the traveler, as they sat down to the meal.

"Stranger," said the woman, "reckon it's about as fine as there is or men and dogs, but it's mighty hard on women and mules."

New Boat Takes Brownie's Place.

A gasoline boat is being built at Stephensport to take the place of this month of the Brownie, which has been running in the Hawesville and Tell City trade and which, also, was built at Stephensport. It is understood that the Brownie will go into the Hawesville and Hopkins trade, meeting at the latter place with another gasoline boat for Owensboro.
